opal frost film

features & benefits

The ImagePerfect™ 5801 Opal Frost is a monomeric translucent matte calendered PVC, coated with permanent, pressure-sensitive, solvent-based acrylic adhesive and carried on a specially designed liner system.

IP 5801:
This film is translucent matte calendered PVC suitable for use on a wide variety of clean, dry surfaces, ImagePerfect™ 5801 Opal Frost window film is resistant to most mineral oils, fats, fuels, aliphatic solvents, mild acids, salt and akali (eg, diesel oil, gasoline, paraffin, hydraulic oil, anti-freeze, soap suds, and more. Applications can be considered such as advertising and display, especially where an etched glass effect is required on clear panels or windows.

PRODUCT CHARACTERISTICS	
description	monomeric calendered PVC
adhesive	permanent solvent acrylic
adhesive strength	20N/25mm FINAT TM 1/24h
release paper	PE coated silicone paper 140g/m^2
temperature range	-30°C up to +90°C
durability (UV stable)	up to 3 years
flame retardancy	adhered to steel, self extinguishing
shelf life	2 years
colour	translucent matte
face film thickness	80µ
